The 2008 Systemics and Informatics World Network (SIWN 2008) aims to provide a distinctive premier international forum for active researchers, developers, professionals and academics from different domains and with diversified backgrounds to get together, to share state-of-the-art research achievements and practical experiences, to exchange in-depth findings and innovative ideas, and in particular to harness the greatest challenges and think seriously into the future.

SIWN 2008 comprises an exciting spectrum of highly stimulating thematic Conferences.

- 2nd International Conference on Adaptive Business Systems (ABS 2008)
- 2008 International Conference on Bioinformatics, Systems Biology and Artificial Life (BSBAL 2008)
- 2nd International Conference on Complex Distributed Systems (CODS 2008)
- 2008 International Conference on Industrial Informatics and Systems Engineering (IISE 2008)
- 2008 International Conference on Networking, Internet and Mobile Communications (NIMC 2008)
- 4th International Conference on Self-organization and Adaptation of Computing and Communications (SACC 2008)
- 4th International Workshop on Agent-Oriented Software Development Methodology (AOSDM 2008)

Call for Contributions

SIWN 2008 will only consider manuscripts of original contributions. All manuscripts submitted will be sent to 3-4 members of the International Program Committees of the Conferences for peer reviews, on which recommendation for acceptance will be based.

SIWN 2008 welcomes Workshops and Tutorials on new emerging areas. Please discuss Workshop/Tutorial proposals with the Chairs.
